

## Current scenario

- ✗ Centralized token distribution (few holders with greater purchasing power capacity)
- ✗ Complex and unfriendly UX
- ✗ Exclusionary and unfair participation requirements
- ✗ Unverified or low projection projects
- ✗ Rigid and vertical offers

## Adastra proposal

- ✓ We liberate the unique and rigid format of today's launchpad systems
- ✓ Encouraging delegation in single pools
- ✓ Promoting the decentralization of the network
- ✓ Facilitating participation in initial offers
- ✓ Participants will never have their funds or stake locked
- ✓ Establishing a hybrid sales system
- ✓ We offer a fair, balanced and dynamic distribution system
- ✓ Become the first launchpad on Milkomeda's ecosystem

## Why Cardano?

- ▶ Smart contracts based on the eUTXO model
- ▶ Unlimited scalability to adapt to prevailing needs
- ▶ Low commissions
- ▶ Most environmentally sustainable blockchain

## Why Milkomeda?

- ▶ EVM compatibility to the Cardano ecosystem
- ▶ Proof-of-stake seamless integration
- ▶ Sidechain security backed up by Cardano's validators
- ▶ Broader compatibility of dapps, projects, and protocols

## Adastra Players

Verified projects / Proof of Life

Single pools

Delegators / Community

Equitable Share

## Offer models

### ISTO

(Initial Stake Token Offering)  
Total supply of the token is made  
in a direct way - direct purchase

### ISPO

Initial Stake Pool Offering  
Total supply of the token is  
acquired from the rewards  
generated through delegation

### ISTO/ISPO

Hybrid  
One part is offered directly (direct  
purchase) and another part  
through the rewards delegation

Delegation of ADA's in single pools  
To participate, the investor must have ADA's delegated in the available single pools

## Adastra phases

## Tokenomics

### Distribution

Team	150.000.000
Development Fund	100.000.000
Treasury	100.000.000
ISPO Public Sale	50.000.000
ISTO Public Sale	100.000.000
FISO Community Rewards	500.000.000

15%

50%

**Total Supply**  
1.000.000.000

**Initial Supply**  
150.000.000

**Vesting Period**  
6 years

## Token utility

- ✓ Access the DAO System to participate in the governance of Adastra
- ✓ Empowers the development and economic stability of Adastra
- ✓ Additional Adastra vault rewards
- ✓ Investors who hold Adastra tokens will be eligible for increasing their allocation of the project's token in initial offerings.
- ✓ Investors receive benefits for delegating ADA's to single pools affiliated within Adastra
